

**The Belgian Society for Cell and Developmental Biology
(BSCDB)**

“Neural Stem Cells and Cortical Development”

Friday 5th of June 2015

8:45 Registration and coffee/Poster mounting

Session 1 : Cerebral cortex development

Chairs: Laurent Nguyen and Eve Seuntjens

9:15 Gord Fishell (New York, USA)

Title to be announced

10:15 Alessandra Pierani (Paris, France)

“Long-range patterning via moving organizers”

11:00 Refreshment break

11:30 Benedikt Berninger (Mainz, Germany)

“Brains in metamorphosis: Forced and physiological neurogenesis in the adult brain”

12:15 Simon Hippenmeyer (Klosterneuburg, Austria)

“Programmed deterministic genesis of neurons and glia in the neocortex”

12:35 Juliette Godin (Liège, Belgium)

“A dynamic Unfolded Protein Response controls cortical neurogenesis”

13:00 Lunch and Poster session

Session 2 : Neural stem cells

Chairs: Eric Bellefroid and Juliette Godin

14:30 François Guillemot (London, UK)

“Signaling and transcriptional control of stem cell activity in the adult brain”.

15:15 Anne Philpott (Cambridge, UK)

“Division versus differentiation in the developing nervous system”

16:00 Short talk 1 ()

open

16:20 Refreshment break

16:50 Meng Li (Cardiff, UK)

“Embryonic stem cell as a model to study gene function and neural development”

17:35 Short talk 2 ()

open

17:55 Short talk 3 ()

open

18:15 BSCDB Poster Awards (2 prizes)

18:30 Drinks and end of the meeting
