

Preliminary Program BSCDB-RBSM Joint Autumn meeting

Thursday September 20, 2018

Time	Topic	Speaker
08h30	Registration desk open	
09h20	Official welcome	
09h30	TBD	Megan King (UK)
10h10	How does the mechanobiology of extracellular matrix fibers steer disease progression?	Viola Vogel (Switzerland)
10h50	Coffee break	
11h20	<i>Life beyond the pixels: image analysis and machine learning methods for drug discovery</i>	Peter Horvath (Hungary)
12h00	Selected talk	TBD
12h15	Selected talk	TBD
12h30	Lunch and poster session	
14h00	Selected talk	TBD
14h15	<i>Immune functions of the nuclear envelope in vivo</i>	Nilushi Da Silva (France)
14h55	<i>ESCRTs at the nuclear envelope: for better or worse</i>	Coen Campsteijn (Norway)
15h35	Coffee break	
16h00	Announcement and presentation of the 2018 BSCDB PhD Excellence Award	Yolanda Van Hengel
16h45	Reception	

Friday September 21, 2018

Time	Topic	Speaker
09h00	Registration desk open	
09h30	<i>Vasoactive stimulating peptide (VASP) localization in the lung is dependent on mode of ventilation</i>	Kurt Albertine (USA)
10h10	<i>Modeling collective cell migration</i>	Maxim Cuvelier (Belgium)
10h50	Coffee break	
11h20	Selected talk	TBD
11h35	Selected talk	TBD
11h50	<i>Tutorial Lecture: Statistical approaches for histological data</i>	Niel Hens (Belgium)
12h30	Lunch and poster session	
14h00	<i>The physical confinement modulates cell velocity in collective migration</i>	Sylvain Gabriele
14h40	Selected talk	TBD
14h55	<i>An exploration into the use of biomaterials for cell/tissue culture and transplantation</i>	Ben Newland (UK)
15h35	Coffee break	
16h00	Announcement and presentation of the 2018 RBSM PhD Excellence Award	Dirk Adriaensen
16h30	Best poster awards	
16h45	End of the meeting with local beers
