

Tuesday - November 12th

8:00 - 8:45: Registration

Astrocyte Session

8:45 - 9:00: Welcome talk (*& announcement poster prizes*)

9:00 - 9:45: - **Andrea Volterra**

“Astrocytes in hippocampal memory and cognitive impairment”

9:45 - 10:15: 2 selected abstract talks focused on astrocytes

10:15 - 10:45: Coffee break

10:45 - 11:00: 1 selected abstract talk focused on astrocytes

11:00 - 11:45: - **Lut Arckens**

“Astrocytes in neuroplasticity “

12:00 - 14:00: Lunch break and poster presentations

Microglia Session

14:00 - 14:45: - **Anne Roumier**

“Regulation of microglia by Serotonin: impact on neurodevelopment and behavior”

14:45 - 15:15: 2 selected abstract talks focused on microglia

15:15 - 15:45: Coffee break

15:45 - 16:00: 1 selected abstract talk focused on microglia

16:00 - 16:45: - **Rosa Paolicelli**

“Microglia in the pathogenesis of neurodegeneration”

17:00 - 17:30: General Assembly RBSCDB

Wednesday - November 13th

Myelinating Glia Session

9:00 - 9:45: - Ashwin Woodhoo

“Neddylation: A global orchestrator of the Schwann cell myelination molecular network”

9:45 - 10:15: 2 selected abstract talks focused on myelinating glia

10:15 - 10:45: Coffee break

10:45 - 11:00: 1 selected abstract talk focused on myelinating glia

11:00 - 11:45: - Ludo Van Den Bosch

“iPSC derived models to study neurodegenerative diseases”

12:00 - 14:00 Lunch break and poster presentations

Non-Myelinating Glia Session

14:00 - 14:45: - Vassilis Pachnis

“Enteric glia: insights into neurogenesis and immunity”

14:45 - 15:15: 2 selected abstract talks focused on enteric glia

15:15 - 15:45: Coffee break

15:45 - 16:00: 1 selected abstract talk focused on enteric glia

16:00 - 16:45: - Lukas Sommer

“Peripheral glial cells: key players in skin wound healing and skin cancer formation”

16:45 - 17:15: Awards (best poster, selected talk, and photo contest) and closing remarks
